Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE
JOURNAL OF INFECTIOUS DISEASES

The Journal of Infectious Diseases

Founded by the Memorial Institute for Infectious Diseases

EDITED BY

LUDVIG HEKTOEN AND EDWIN O. JORDAN

IN CONJUNCTION WITH

FRANK BILLINGS F. G. NOVY

W. T. SEDGWICK

Volume 7

1910

Chicago, 1910

Composed and Printed By
The University of Chicago Press
Chicago, Illinois, U.S.A.

TABLE OF CONTENTS.

NO. 1, JANUARY 15, 1910

A Comparative Study of Intestinal Streptococci from the Horse, the Cow, and Man
C.-E. A. Winslow and G. T. Palmer - - - - - - 1–16

An Investigation of the Extent of Bacterial Pollution of the Atmosphere by Mouth Spray
C.-E. A. Winslow and E. A. Robinson - - - - - 17–37

The Bacterial Flora of Milk Held at Low Temperatures
M. P. Ravenel, E. G. Hastings, and B. W. Hammer - - - 38–46

On the Production of Sanitary Milk
P. G. Heinemann, A. B. Luckhardt, and A. C. Hicks - - 47–66

The Reaction of Various Bacteria upon Aesculin Agar
Oscar Klotz and A. C. Rankin - - - - - - - - 67–72

A New Color Medium for the Isolation and Differentiation of Streptococci
D. D. Todd - - - - - - - - - - - 73–77

Methods for Testing Shellfish for Pollution
Stephen DeM. Gage - - - - - - - - - 78–86

The Precipitin Reaction in Tuberculosis
A. E. Porter - - - - - - - - - - - 87–98

Injections of Homologous Streptococci Killed by Galactose in the Treatment of Suppurative Complications of Contagious Diseases
T. Harris Boughton - - - - - - - - - - 99–110

Interaction of Serum, Leukocytes, and Bacteria in Phagocytosis
T. Harris Boughton - - - - - - - - - - 111–126

A Study of the Concentration of the Antibodies in the Body Fluids of Normal and Immune Animals
Frank C. Becht and James R. Greer - - - - - - 127–158

A Study of Complement Fixation in Gonorrheal Infections
T. Watabiki - - - - - - - - - - - 159–179

No. 2, MARCH 1, 1910

Venom Hemolysis
Preston Kyes - - - - - - - - - - - 181–284

Studies in the Morphology of Malarial Plasmodia after the Administration of Quinine and in Intracorpuscular Conjugation
Charles F. Craig - - - - - - - - - - 285–318

On the Distribution of Antibodies and Their Formation by the Blood
Ludvig Hektoen and A. J. Carlson - - - - - - - 319–333

No. 3, MAY 20, 1910

The Relation of the Pseudodiphtheria and the Diphtheria Bacillus
Paul F. Clark - - - - - - - - - - - - 335–367
Plague Infection in the Brush-Rat
George W. McCoy - - - - - - - - - - - 368–373
The Susceptibility to Plague of the Prairie Dog, the Desert Wood Rat, and the Rock Squirrel
George W. McCoy and Frederick C. Smith - - - - - 374–376
The Distribution of Bacteria in Bottled Milk, and Certain Controlling Factors
John C. Torrey and Alfred H. Rahe - - - - - - - 377–392
The Value of Opsonin Determinations in the Discovery of Typhoid Carriers
Alice Hamilton - - - - - - - - - - - 393–410
A Study of Pneumococci from Cases of Infectious Endocarditis
E. C. Rosenow - - - - - - - - - - - 411–428
Immunological Studies in Chronic Pneumococcus Endocarditis
E. C. Rosenow - - - - - - - - - - - 429–456
An Outfit for Sending Bile, Specimens of Blood, Feces, and Urine, and Some Results of the Examination of Such Material
William R. Stokes and Harry W. Stoner - - - - - - 457–468
Bacillus abortus of Bang, the Cause of Contagious Abortion in Cattle
W. J. MacNeal and Josephine E. Kerr - - - - - - 469–475
Some Observations on the Wassermann Reaction
Lawrence T. Clark - - - - - - - - - - 476–480
The Influence of Age and Temperature on the Potency of Antidiphtheric Serum and Antitoxic Globulin Solution
J. W. Anderson - - - - - - - - - - - 481–488

No. 4, AUGUST 24, 1910

On the Mills-Reincke Phenomenon and Hazen's Theorem Concerning the Decrease of Mortality from Diseases Other than Typhoid Fever Following the Purification of Public Water-Supplies
W. T. Sedgwick and J. S. MacNutt - - - - - - - 489–564
The Physiology of Anaphylactic "Shock" in the Dog
R. M. Pearce and A. B. Eisenbrey - - - - - - - 565–576

The Influence of Chloral Hydrate on Serum Anaphylaxis
E. J. Banzhaf and L. W. Famulener - - - - - - 577–586
Studies on Inhibition, Attenuation, and Rejuvenation of Bacillus coli
F. E. Hale and T. W. Melia - - - - - - - - - 87–598
A Hemophilic Bacillus Found in Urinary Infections
David J. Davis - - - - - - - - - - - 599–608

No. 5, OCTOBER 25, 1910

Balantidium coli Infection in Man (*with Plates 1, 2, 3, and 4*)
George S. Bel and M. Couret - - - - - - - - - 609–624
The Influence of Extracts of Anchylostoma caninum on the Coagulation of the Blood and on Hemolysis
Leo Loeb and Moyer S. Fleisher - - - - - - - 625–631
The Determination of the Number of Body Cells in Milk by a Direct Method
S. C. Prescott and R. S. Breed - - - - - - - - 632–640
Formaldehyde Disinfection with Special Reference to the Comparative Value of Some of the Proprietary Products
M. L. Holm and E. A. Gardner - - - - - - - 641–663
The Bacterial Integrity of Collodion Sacs
C. A. Fuller - - - - - - - - - - - - 664–674
The Value of Collodion Membranes as Filters
Edna Steinhardt - - - - - - - - - - - 675–679
Non-Inheritance of Impressed Variations in Streptococcus lacticus
Robert E. Buchanan and Roy Truax - - - - - - - 680–697
Observations on the Anti-infectious Power of the Blood of Infants
Ruth Tunnicliff - - - - - - - - - - - 698–707
General Index - - - - - - - - - - - - 709–714
